LOGNOTE -- Acting Chief, Operations Group, 30 May 1986

3. [ ] Talked for second time to [ ] of RECD about looking for Kelly Girl space as contingency in case DRD must be moved to Reston before AFS is ready. She has discussed request within RECD and with PAO. The Agency is trying to keep the Reston move quiet, especially before we take over building and put our own security in place. They prefer that Agency components not inquire about other space availability in area at this time. Also Barbara feels that information gained now will be so out of date by spring as to be useless. She feels that if it looks likely that we want to keep Kelly, we should consider having them make inquiries. I feel we should let this lie until more information available.
